ABOUT ME

Senior Software Engineer, 20+ years in Java/Spring, blending hands-on engineering with real team leadership. Engineer: Eron International and, currently, TuFactura, a production invoicing SaaS for Argentine taxpayers. Leader: teams at G&L Group, Baufest, and Navent, plus five years running a family-owned textile company.

EXPERIENCE

Founder & Engineer — Invoicing SaaS for Argentine Taxpayers *Remote*
TuFactura *May 2026 – Present*

- Designed, built, and shipped a production SaaS solo — invoicing, recurring billing, ARCA tax integration, notifications, accountant/affiliate portals — on a spec-driven workflow backed by 10+ internal tools

Java Developer / Senior Java Backend Engineer, Payments Platform *Buenos Aires, Argentina / Remote*
Eron International — internal rotation, including AstroPay *Feb 2024 – Jun 2026*

- **AstroPay (Feb 2024 – Mar 2025):** Owned end-to-end integration of a new bank as PSP for CVU operations and inter-account transfers in Argentina, coexisting with the legacy integration until it became the sole provider
- **Payments Platform (Apr 2025 – Jun 2026):** Continued across multiple teams — LATAM Payments (twice), Platform, and TuPay Peru — on card processing, subscriptions, and LATAM provider integrations, maintaining 15+ Java/Spring Boot microservices on Kubernetes

Java Developer *Buenos Aires, Argentina*
Banco Industrial SA *Sep 2022 – Jan 2024*

- Owned the front-end Sales application and established coding standards across multiple internal projects

Java Developer — Contractor *Remote*
DataArt Inc *Jan 2022 – Aug 2022*

- Developed compliance plugins integrated into a regulatory reporting system

Senior Java Developer *Buenos Aires, Argentina*
Navent *Jun 2021 – Jan 2022*

- Led modernization of the real estate backend (ZonaProp / Inmuebles24) to Spring Boot microservices

Team Leader & Java Developer *Buenos Aires, Argentina*
G&L Group, for Banco Credicoop *Jan 2020 – Jun 2021*

- Promoted to Team Lead of the GUV validation system, leading 6 engineers through critical fixes and deadlines

Team Leader & Java Developer *Buenos Aires, Argentina*
Baufest, for BBVA *Mar 2019 – Jan 2020*

- Led a BBVA digital transformation project, migrating analog banking processes to REST microservices

Operations Manager *Buenos Aires, Argentina*
Textil DaiVak SRL *Jan 2014 – May 2019*

- Managed daily operations alongside ownership (purchasing, warehouse, fulfillment) and sold to key accounts, built a sales team, and handled collections/vendor negotiation through growth and contraction phases

Earlier Experience (2003 – 2013): Team Leader & Java Developer at ProKarma, BairesDev, Verizon, Siemens Itron, IBM, Decidir.com; also freelance via JM Sistemas.
